

# APEA

## *Asia Pacific Endometriosis Alliance*

### WHO ARE WE

Asia Pacific Endometriosis Alliance (APEA) embodies professionals including gynaecologists, laparoscopic surgeons, researchers and educators, who have a specific interest in endometriosis, a medical condition affecting millions of women and girls worldwide.

The aim of this alliance is to share expertise, enhance research opportunities and to give our region an international voice.

### WHAT WE DO

**APEA** aims to improve the health of women with endometriosis by providing practical support and education to the professionals who care for them

**APEA** works to promote meaningful research into endometriosis

Meetings aim to give **APEA** members the practical skills necessary to treat women with endometriosis more effectively

**APEA** publishes 3 electronic newsletters a year, with the latest scientific, surgical and clinical concepts from experts in our region

Membership is open to all professionals working in the area of endometriosis from the Asia Pacific region. Representatives from endometriosis organisations across the region may also apply for membership

**APEA** database is confidential. Your privacy is assured.

Join - get more information - hear details of the next clinical meeting by contacting us at:
